Select: VCCS Practice Test Institution from the Institution drop down box.

Select: VCCS

Enter: “Virginiapt” as the password.

Fill In: All required fields that have a red asterisk.

Note: A combination of letters and numbers should be entered for the **Student ID** field. *For current VCCS students, the letters of the college abbreviation should precede the student ID, for example ID 9871991 should be changed to BRCC9871991. For individuals taking the practice test who do not have a student ID, follow the college abbreviation with any random combination of numbers. If a message is received to verify that the Student ID was correctly entered, use a different random combination of numbers following the college abbreviation.* For the **Email Address** field, *practice test takers should enter a personal email address (NOT the student's college email address)* so that the student can receive an auto-generated email containing logon and password information. A student can save his/her work on the practice test and return to it at a later time through directly logging in with the logon and password information.

Click: “Submit” after all required fields have been completed, and the student will be taken immediately to the testing dashboard.
