____	____ ⁶	Approved Laboratory Science Elective	6	4	
			TOTAL 15	TOTAL 13	

*One section only may be offered. Check course schedule for day and time.

¹Students should consult their advisor and transfer institution about which math course to take. MTH 163 followed by MTH 240 or MTH 270 are more universally transferable. Students may select from MTH 163 or 170 as first course choices. MTH 240 or 270 may be taken as second course choices. Before registering for these courses, check to be sure that your transfer institution will accept them.

²Students who have satisfactorily completed two years of a foreign language in high school may petition for advanced placement to the intermediate level of this foreign language. Students should consult their transfer institution about language requirements. Some B.S. programs require intermediate level foreign language.

³Students should consult their advisor and transfer institution about the computer literacy course to take. Students who have good backgrounds in computers may petition for credit by examination.

⁴Students should consult their advisor and transfer institution about which literature sequence to take.

⁵Degree requirements may be fulfilled by students taking sequential or non-sequential courses in the same or different subject area. Students are advised to check the requirements of their transfer institution.

AA in Liberal Arts: FULL-TIME

⁶It is recommended that future elementary teachers take one semester of physical science and one semester of biological science.

Advisor:

I have covered all information necessary for the above student to be fully aware of what is required for graduation with an Associate of Arts – Liberal Arts – Teacher Preparation Specialization. I have advised the student of all elective choices as necessary in the course sequence. I have made an agreement with the student to meet in each consecutive semester following this advising session so that we may re-evaluate the student’s progress and next step toward graduation. I will put into writing any substitutions of courses not specifically listed in the curriculum that I approve. I have provided the student with my contact information so that the student may reach me with questions regarding my advice and their course sequences.

Student:

I have listened to all information that my advisor (listed above) has given me regarding what is required for my graduation with an Associate of Arts – Liberal Arts – Teacher Preparation Specialization. I understand all my elective choices as necessary in the course sequence. I will contact my advisor with any questions I have regarding courses to take or any courses I wish to substitute into my curriculum and I will not register for courses not specified in my curriculum without the permission of my advisor.
